THE 1924 BLUE DEVILS

### TOO MANY CRIME STORIES PRINTED

**Calvin W. Rice Speaks to Seniors in Engineering**

Calvin W. Rice, secretary of the American Society for Mechanical Engineers, in an address to the members of the senior class in Mechanical Engineering Monday morning at Dicker Hall, stated that the newspapers of the country publish too many crime stories. He also spoke before the luncheon meeting of the same organization which was held in the palm room of the Phoenix hotel at noon.

World vision and its relation to the student engineer was the theme of Mr. Rice's address. He advised the students to read the newspapers regularly, but to exclude all crime and scandal. By way of illustration, he displayed marked copies of various newspapers of the country in comparison with the papers of England and South America, where he recently attended engineering conferences at Rio de Janeiro. He stated that the public is largely responsible for this condition, in that they demand only the sensational stories.

Those present at the luncheon were Mr. Rice, Dean Anderson, Professor Anderson, Mr. Nunan, and the senior engineers, C. G. Stamatoff, G. L. Fowler, J. B. Bishop, T. C. Lyons, F. Z. Goosman, C. L. Orman, C. L. Dees, M. E. Trumbell, R. C. Porter, G. K. Giovannoli, J. M. Willis, R. V. Clark, R. M. Hukle, R. S. Trosper, O. W. Daniel, C. W. Gray, J. C. Wallace, J. E. Murphy, H. V. Stevens, G. K. Fischer and Leon Bird.

### LIBRARY IS GIVEN VALUABLE BOOKS

**Educational College Donates the American Journal**

The 32 volumes of the American Journal of Education, published from 1855 to 1870 by Henry Barnard, the first great American educational scholar, have been presented to the university library by the College of Education. These books have been out of print for many years.

Plates of the original printing were obtained by C. W. Barden, of Syracuse, N. Y., who has reproduced the books with the original type and the original make-up. The volumes cover practically every phase of the history of education from its beginning to 1870, and constitutes a store house of educational information of great value to students of education for reference work.

### PROFESSOR LUNN WILL GIVE FOUR LECTURES HERE

**Speaker is from Dept. of Math. at Chicago University**

### GUEST AT DINNER

**Lecturer Will Expound Theories of Chemistry, Relativity**

Professor A. C. Lunn, of the department of Mathematics, University of Chicago, will give a series of four lectures on Thursday and Friday, March 26 and 27, at the University of Kentucky.

Professor Lunn comes to Lexington at the invitation of the department of Physics of the university. The lectures will be open to the public, faculty and student body and will be free of charge. They will be given in the Physics lecture room in the Civil and Physics building.

The first of these lectures will be given at 4 o'clock on March 26, the subject of which is "The Problem of the Atomic Constants and the Chemical Elements." This lecture is mathematically elementary and will be of interest to physicists, chemists and mathematicians alike.

Thursday evening at 7:30 o'clock the subject of the lecture will be "The Motive of Relativity in Scientific Theory." This lecture was recently given by Professor Lunn to the Philosophy Club of the University of Chi-

(Continued on Page Seven)

### MISS ELLIOTT WILL SPEAK TO WOMEN

**Interesting Lecturer to be Here on March 26**

Miss Harriett Elliott, of the North Carolina College for Women, will speak to the women students of the university Thursday, March 26, during the fifth hour at the men's gymnasium. Miss Elliott is the third speaker of the vocational guidance series and her subject will be "The Profession of Teaching." This lecture is compulsory for all women students who do not have a class at this hour.

Miss Elliott is not only an excellent speaker, but she is also woman of an attractive personality. She has made addresses extensively over the state of North Carolina, and will no doubt be one of the most interesting speakers of the series.

### SENIOR INVITATIONS

The representative from Harcourt Engraving Company will be on the campus Monday and Tuesday to take orders for senior invitations. The leather invitations are 38 cents each; the plain white ones are 20 cents each. Two-thirds of the price of the order is due when the order is given.

Students must place their orders on the days specified.

### KERNEL ELECTS OFFICERS FOR '26

**Estes, Morris and Hays Are Chosen by the Staff**

The officers of the Kentucky Kernel were elected at a meeting of the staff at the fifth hour yesterday. J. A. Estes was elected Editor-in-Chief. Mr. Estes has for some time held a responsible position on the Lexington Herald and has been actively connected with the Kernel.

Mr. Arthur Morris was elected Managing editor. Mr. Morris is at present assistant News Editor of the Kernel.

Mr. Joseph K. Hays, at present the advertising manager, was elected unanimously to succeed Kyle Whitehead as Business Manager. Mr. Whitehead expressed his wish to resign immediately and Mr. Hays will assume responsibilities at once.

The present staff will remain in office until the end of the semester and the new staff will cooperate with it, learning the details before it begins active service.

### U. K. RATES HIGH IN THE NATIONAL DAIRYING TEAMS

**Local Team is Highly Praised by W. F. Skinner**

### AVERAGE 6th PLACE

**Expect to Enter Crack Judging Team Next Year**

By Robert J. Mitchell, Jr.

News of the greatest interest and importance to the college of Agriculture was published last week and reveals that dairy judging teams of the University of Kentucky which were sent to the National Dairy Shows, which are really international in scope, in past years have placed so near the top of the list of university teams that the fact deserves more than passing mention.

The information is contained in Hoard's Dairyman, issue of March 6, in an article written by Floyd Wright, who quotes W. F. Skinner, secretary of the National Dairy Association.

According to Mr. Wright, the National Show was the sixteenth college judging contest for students with a total of 944 student contestants, comprising 236 teams and representing 37 colleges. Ontario was the foreign college participating. Out of the sixteen shows Kentucky teams have been placed at sixth place for an average of the sixteen contests.

(Continued on Page Seven)

### ALPHA DELTA SIGMA TO ENTERTAIN LEADING MEN AT GRIDIRON DINNER

**Kenneth Gregory, Warren Price, Gordon Davis, Joe Hays, Emmett Milward Pledged to Journalistic Fraternity**

Alpha Delta Sigma, men's professional journalism fraternity, will be hosts to the leading newspaper men and other prominent men of the state at their fourth annual Gridiron Dinner to be held at the Phoenix hotel Monday evening at 7 o'clock.

Four hundred invitations have been issued for the affair and acceptances are arriving daily. Plans are being made to entertain 200 guests at the banquet.

The program committee has planned a very comprehensive program, which will be in the nature of a "take-

off" on the leading topics of the day. There will be a mock conversation between the phlegmatic Coolidge and the boisterous Dawes. A cross-word puzzle will be worked by the guests and a clairvoyant will answer any question propounded.

The George D. Prentiss chapter at Georgetown has been invited to take part in the program and will present "The Ideal Eugenic Marriage." The Georgetown chapter and the Kentucky chapter are more closely related, geographically, than any other

(Continued on Page Eight)

### STORE IN GYM

The SuKy Circle of the university will have a store in the east end of the gymnasium during the High School tournament, and will have sandwiches, ice cream and candies for sale.

Members of the Circle will be there at all times to give information to teams or spectators, and will be at their service all during the tournament.

### 18 DISTRICTS ARE REPRESENTED IN ANNUAL NET TILT

**35 High School Teams Contest for State Honors**

### FINALS SAT., 8 P. M.

**Silver Trophies Will Be Awarded to the Winners**

### "THE MESSIAH" TO BE SUNG APRIL 30

**Berea to Send Chorus; Directed by Professor Ralph Rigby**

The third of a series of rehearsals of the chorus to present Handel's "Messiah," on April 30, at the University of Kentucky was held Monday night at Patterson Hall.

"The Messiah" will be given under the auspices of Phi Mu Alpha, musical fraternity, directed by Professor Carl Lampert head of the department of Music.

Professor Lampert is well pleased with the progress being shown by the chorus, which now numbers one hundred and fifty voices, which will be supplemented by a chorus from Berea College, now under the direction of Professor Ralph Rigby, head of the department of Music at that institution.

"The Messiah" will be presented as a community affair and an attempt is being made to place it before all lovers of music.

Several well known soloists have been retained to sing the solos and the principal parts.

### JULIAN PINKERTON SENT TO S. AFRICA

**American Consul to Africa is a Kentucky Alumnus**

Julian Larabie Pinkerton, of Versailles, an alumnus of the university, was transferred in January from United States Vice-Consularship to Africa to American Vice-Consul to South Africa.

Pinkerton obtained his A.B. in History in 1914 and was one of the honor graduates. During his college course he was employed at the Second National Bank of Lexington. In 1923 he married Yvonne Guyan, of Bordeau, France.

Pinkerton's first governmental position was as United States Vice-Consul to Spain. He was later transferred to Africa. His last position as American Vice-Consul to South Africa is a promotion.

The referees of the games are

(Continued on Page Eight)

### NOTICE, SENIORS!

Seniors are requested to go to the University Book Store, in the Administration building, to be measured for caps and gowns. This must be done before March 15.

# Alumni Page

Editor—Alumni Secretary

## CALENDAR

Lexington, Mar. 14. (Second Saturday—Regular) luncheon at 12:00, Lafayette Hotel.

Buffalo, Mar. 14. (Second Saturday—Regular) luncheon, 1:15 p. m., Chamber of Commerce, corner Main and Seneca streets.

Chicago, Mar. 16. (Third Monday—Regular) luncheon at Field's Grill.

Detroit, Mar. 27. (Last Friday—Regular) dinner at Dixieland Inn.

Somerset, April 3. (First Friday—Regular) 7:30 p. m. at Dr. Norfleet's office.

Philadelphia, April 4. (First Saturday—Regular) luncheon at Engineers' Club, 1317 Spruce Street.

## LOUISVILLE CLUB

## IS REORGANIZED

## N. Gray Rochester Is Elected President

The Louisville University of Kentucky Alumni Club has reorganized. The first meeting was held Saturday, March 7 in the Brown Hotel.

The following officers were elected. President, N. Gray Rochester '12; Vice President, Ralph Morgan '15; Secretary, Miss Christine Hopkins '15; and Treasurer R. F. Bamber. These officers have always been loyal and enthusiastic alumni and have done much individual boosting of the University and the Association.

The club is making elaborate plans for the K. E. A. and the University of Kentucky banquet, which will be held in Louisville April 22-25. Miss Hopkins, especially, was untiring in her efforts to put the banquet across last year, and aided as she will be by the reorganized club—the success of this year's banquet is assured.

The Louisville alumni took a long step in having an ever-active and long-lived club in deciding to have regular meetings. No doubt one of the reasons that the clubs outside of the state, generally, are stronger and more active is that they have regular meetings. With them a meeting is more than a mere gathering of alumni and former students called at such time as there is some special cooperation needed by the University or the Association. The University, to a large extent, is the students and their spirit. The clubs who meet regularly have the University and the Association with them. They keep in touch with these institutions—they know them as an enterprising friend, a wide-awake and ever-striving, ever-progressing comrade—and not as a "poor relative" as does the club which meets once every five or six months to discuss some special need of their Alma Mater.

## Dear Alumnus:

Last Monday the senior engineering society of the University of Kentucky was addressed at Dicker hall by Calvin W. Rice, secretary of the American Society of Mechanical Engineers. He said that the newspapers of American publish too many crime scandal stories. He further stated that the public was largely responsible for this in that they demanded sensational stories and the newspapers are forced to give them what they want.

Mr. Rice should become acquainted with the graduates and former students of this institution. With the slogan of "Every member be a reporter" he should meet the reporters of the Alumni Page of the Kentucky Kernel. Whether they received their ideas regarding this phase of newspaper work from Mr. Rice it is not definitely known, but they are certainly living up to his doctrine.

Let's not tell him though that that seems to be all that they do know as the reporters who have reported in the last year could almost be counted on one's fingers. There certainly should be a new leaf turned over in this direction, but of course if you can only run down stories of crime and scandal, continue your policy and "keep it dark". However, alumnus, if anything has happened to you, a member of your family, or an alumna friend, that is not scandal of criminal please report.

Yours truly,

—Editor

## ALUMNI GLIMPSE UNIVERSITY LIFE

## GLEE CLUB HAS SUCCESSFUL TOUR

The University of Kentucky Glee club has returned from its trip to Greenup, Morehead, Louisa and Catlettsburg.

The club was delighted with the enthusiasm of alumni and their friends in these towns, and we are sure that the alumni were very much pleased with these students and the happy reminder given to them of olden days when they were vitally interested in campus activities.

We know that there are alumni in other towns in Kentucky who are anxious for a glimpse of this University life. The Glee Club is planning another tour the latter part of this month. The Student Speaker Bureau is ready to send enthusiastic speakers to your town and the Strollers are now planning their annual trip. The Alumni Association is the link between the students and the alumnus—between the University and the alumni. Write to us—no doubt we could send you some of this University "pep," which will awaken your club, renew your interest in the University and establish a bond of friendship and sympathy between the University and the citizens of Kentucky and nothing else can do.

## LEXINGTON PLANS BIG CLUB SESSION

## Officers Will Be Elected Tomorrow

The Lexington Alumni club will hold its regular meeting at 12 o'clock Saturday, March 14, with a luncheon in the Lafayette hotel. This promises to be a very interesting meeting, and plans are being made to get special notice to every member of the club. If, for any reason, you fail to receive this word, Lexington alumni, be sure to come any way.

Election of officers will be held at this meeting. There are a number of members that have done much helpful work for the Association and the University in the past and there will no doubt be fine material for an interesting election.

Plans will be launched for an intense membership campaign. A very successful campaign for members was put on a few years ago, and it is hoped that much good will be derived from this one.

## DOG SAVES LEWIS CHILDREN'S LIVES

## Four Children of A. Thornton Lewis Rescued, a Result of Barking Pet

The four children of A. Thornton Lewis '06, president of the York Heating and Ventilating Corporation, of Philadelphia were saved from death by fire, by a barking dog, according to word received here Sunday by Dean F. Paul Anderson of the College of Engineering, University of Kentucky.

Mr. and Mrs. Lewis were in Cuba at the time of the fire. Their four children: Betty, six years old; Alan, eight years old; Daniel, ten years old and Thornton, Jr., were left in charge of Mrs. Lewis' mother and a governess.

The barking of a pet dog attracted the attention of a late passerby who noticed smoke pouring from a basement window and turned in the alarm. The four children and two women were sleeping on the second floor of the house and had to be lowered to an adjoining rage roof and thence to the ground by firemen. Three firemen were overcome by smoke in fighting the blaze, the message said.

Dues and Subscription to the Kernel \$2.00

Student Speakers are now available

## BUFFALO PLANS ANNUAL BANQUET

## Senior Engineers to Be Entertained at Chamber of Commerce April 8.

We are in receipt of a letter this morning from Herman Worsham, president of the Buffalo Alumni club giving a special invitation to the annual dinner for the senior engineers which is to be held at the Chamber of Commerce at 7:30 p. m., April 8. This will be a great event in the lives of alumni and students. The entire senior engineering class and visitors from Lexington will be present, and it is expected that alumni and former students from all over the eastern part of the United States will attend.

## ALUMNI COACHES ATTEND CONTEST

## Thirty-Five Teams Meet For Basketball Tournament

"They're off, on the toss-up." The basketball tournament began yesterday morning with eighteen boy's teams and seventeen girl's teams vying for the championship of Kentucky. These are truly great days at the University and excitement is running high. John P. Head '20, W. H. Hansen '24, Bart Peak '17 and Basil Hayden '21 are referees. Several alumni are here as coaches of their team or principal of the school. Among these are: George M. Gumbert '17, Aldon coach; David T. Todd '23, Newport coach; John G. Heber ex-21, with his "Blue Devils" John V. Buchanan '24.

## CLASS PERSONALS

'84  
Dr. Russel T. Ramsey, who received his M. D. in 1887 from the Ohio Medical College has offices in suite 566 Metropolitan building, Denver, Colo.

'81  
Henry S. Berry is head of the Fiscal Agent department of the Federal Reserve Bank of Cleveland, Ohio. He is living at 18 N. Marcella-Greenup street, Covington, Ky.

'94  
Ulysses A. Garred is consulting engineer with offices at 43 Exchange Place, New York City. His residence address is 120 Twenty-fifth street, Clivehurst, Long Island, N. Y.

'98  
David W. Hammock is superintendent of schools at Olive Hill, Ky. Mr. Hammock has held this position for several years.

'03  
Elias Elvove, who received his M. S. in '04 and his Ph. D. in '10 is chemist in the U. S. Public Health Service at Washington, D. C. He should be addressed 1228 H. St. N. E.

'06  
Thomas W. Freeman, who has been on our "Lost list" for some time, is now living at 305 Capitol apartments, Raleigh, N. C.

'07  
Frank C. Paulin, formerly of Springfield, Ill., is now living in Atalia, Wash.

'08  
Morgan T. Craft is bookkeeper for the Hackney Bros. & Company, London, Ky.

Warren T. Green is with the Metal Box company of Louisville, Ky. His residence address is 2014 Cherokee Parkway.

'09  
John S. Crosthwaite, who received his B. M. E. in 1913, is superintendent of the Glenwood Factory of the Habirshaw Tlectric Cable company. He should be addressed 779 Washington avenue, Yonkers, N. Y.

STADIUM PAYMENTS WERE DUE FEBRUARY 1

'10  
You will please change my address from Box 11, Raleigh, N. C. to 615 Chapel Hill street, Durham, N. C.—A Frank Baker.

'11  
Charles E. Daniel is real estate manager with offices at 101 Park avenue, New York City. Mr. Daniel has held this position for several years.

'12  
Edmund P. Wesley should be addressed to the Travelers Life Insurance company, Dallas, Texas.

## KENTUCKY KERNEL

William T. Pearce is professor of chemistry at Clemson Agricultural college, Clemson College, S. C.

'13

An error was made in the address of John R. Foster in the Kernel of February 6. We desire to correct this and say that Mr. Foster is superintendent of the Chicago Wilmington & Franklin Mining company, Herrin, Ills.

'14

Jesse R. Christie is now living at Falls Church, Va.

'15

Robert B. Cottrell is testing engineer with the American Steel Foundries, Granite City, Ill. He should be addressed 501 North 23rd street, East St. Louis, Ill.

'16

H. D. Palmore's address has been changed from Bowling Green to Frankfort, Ky.

'17

University of Kentucky Banquet—April 23—Louisville

'18

Samuel E. Cooke is now living at 1544 Fifth avenue, Huntington, W. Va.

'19

Miss Aleene Edwards is teaching at Elizabeth City, N. C. this year.

Miss Elizabeth F. Eldridge, who received her M. A. from the University in 1917 is private secretary in the Southern Railway company of Columbia, S. C.

'20

Miss Elizabeth R. Cary is teaching history at Margaret Hall, Versailles, Ky.

Mrs. James Moore, formerly Ina M. Darnall, is living in Gordonsville, Tenn.

'21

James J. Hume is a mining engineer with the Liberty Coal & Coke company at Straight Creek, Ky.

Curtis F. Park, Jr. is farming at LaGrange, Ky. Mrs. Park was formerly Miss Sara N. Smock, '23.

'22

Harry C. Haggan is principal of the high school at Perryville, Ky.

William S. Hieronymus is farmer and oil developer at St. Helens, Ky.

Sherley Hudson should be addressed 4101 Bienville street, New Orleans, La.

'23

Mr. and Mrs. Raymer Jones of North Middletown are receiving congratulations upon the arrival of a daughter on Saturday, March 7. The little girl has been named Mary Collins Jones for her maternal grandmother. Mrs. Jones was formerly Miss Marie Collins.

Marcus C. Redwine, former secretary of the Winchester Alumni club is a practising attorney with offices in the Clark County National Bank building, Winchester, Ky.

'24

Miss Catherine A. Denton is teaching home economics in the high school at Central City, Ky.

Jack M. Dorr is with the State National Bank of Maysville, Ky. He is living on Front street.

'25

Charles R. Rodgers is now a student at New York University, where he will get his Masters degree this year. His residence address is 19 West 106 street, New York City.

Bruce O. Barter is with the Department of State Roads and Highways at Clay City, Ky.

'26

Milton K. Reville is with the Harris Trust company, 34 U. S. Trust company building, Louisville, Ky.

Miss Georgie Lee Riley is teaching mathematics in the high school at Gillette, Wyo.

'27

Coleman Collis, of Cambridge, Mass. is spending several days with his parents, the Rev. Mark Collis and Mrs. Collis of Lexington, Ky. Mr. Collis is a special representative of the American Railway Signal company of Cambridge.

James W. Colipits is with L. E. Myers company, Burgin, Ky.

Miss Mary Louise Covington is teaching Latin in the high school at Richmond, Ky.

'28

G. Orman Bryant is teaching in the Eastern Kentucky State Normal school at Richmond, Ky. His residence address is 433 Second street.

Miss Louise Connell is teaching English in the high school at Mt. Eden, Ky.

Axel Robert Ernberg writes: "Kindly change my address from 3005 East Grand boulevard, Detroit, Mich., to 907 South Oregon avenue, Tampa, Fla. Be sure and send that Kernel."

Charles V. Ginocchio's new address is Box 214, Coral Gables, Miami, Fla.

'29

John S. Hambleton is with the Metropolitan Life Insurance company, Los Angeles, Cal. He should be addressed 711½ South Vernon avenue. Mr. Hambleton has the unique record of being the only paid-up alumnus in the class of 1925.

## Dear Alumnus:

## SOCIETY NOTES

### Calendar

Friday, March 13—University of Kentucky Woman's Club meeting at Patterson Hall at 3 o'clock.

Saturday, March 14—SuKy Dance in the new gymnasium from 9 to 12 o'clock.

### For Grand Officer

The Alpha Gamma Delta house on South Limestone was the scene of a lovely formal reception, Saturday evening, given by the active members of the sorority in honor of the grand historian, Mrs. Neda Stucky Hammond, of La Fayette, Ga., who was their guest for the week-end.

The rooms were beautifully decorated with southern smilax, red and buff roses in silver vases were placed on the mantelpiece and tables and white tapers were burned. In the receiving line were Miss Mildred Reese, president of the chapter. Mrs. Hammond, Mrs. T. H. Johns, house mother, and Miss Annelie Kelley. Ices and cakes were served and violin music was enjoyed during the hours. Many guests called and the affair was most enjoyable.

### Afternoon Tea

The Y. W. C. A. of the university entertained at tea on Friday afternoon in White Hall in honor of the members of the Advisory Board of the organization. Delicious refreshments were served.

The guests of honor were: Mrs. C. J. Turck, Mrs. George Roberts, Mrs. Paul P. Boyd, Mrs. P. K. Holmes, Mrs. J. R. Johnson and Dean Sarah Blanding.

### To Attend Conventions

Representatives from three sororities who will attend national conventions this summer as delegates from their chapters are:

Miss Ruth Kehoe will represent Delta Delta Delta at Glacier Park, Colorado.

Miss Ava Caywood will attend the Kappa Delta convention at Mackinac Island, Michigan.

Miss Virginia Kelley will represent Alpha Gamma Delta at Seattle, Wash.

### Fourth Cadet Hop

The fourth cadet hop of the year was given Saturday afternoon in the new gymnasium, by the members of the R. O. T. C. regiment, from 3 to 6 o'clock and was one of the most enjoyable of the year.

Assisting in receiving the guests were Cadet Colonel Cecil French and Colonel Sponsor Maria McElroy. The Blue and White orchestra furnished the music and several hundred guests were present.

### SuKy Dance

The members of the SuKy Circle are sponsoring a tournament dance Saturday evening in the new gymnasium, following the final basketball game of the high school tournament. A subscription of \$1.00 will be charged and all university and high school students are invited. The SuKy dances are always among the most enjoyable of the year and it is hoped that a large number will attend.

### Delta Tau Delta Dance

The active chapter and the pledges of Delta Epsilon of Delta Tau Delta entertained last Saturday night with a formal dance at the Phoenix hotel from 9 to 12.

Several hundred guests attended the affair, among whom were representatives of the sororities and fraternities on the campus and visiting Delta Tau Deltas from nearby cities. At the end of the ballroom the fraternity badge was hung, illuminated by vari-colored lights; the programs were attractive cards, replicas of the badge of the

## BIBLE COURSE IS STARTED BY Y. W.

### Prominent Local Speakers Give Series of Lectures

The Y. W. C. A. started its annual Bible study course March 4, and will continue it for five weeks, meeting regularly on Wednesday night at 7 o'clock.

This course consists of a series of lectures which are being conducted by prominent speakers on the campus, and the subjects chosen are of vital interest to every college girl. These speakers, however, have been limited to the sorority houses, as a new form of study is on trial at the halls, a method involving student leaders, three of which have been selected for Patterson Hall and one for Smith and Boyd Halls combined.

The following speakers and their subjects have been chosen:

Mrs. McVey, "The Products and By-Products of a College Career."

Miss Blanding, "Campus Problems."

Professor Farquhar, "The Student and Religion."

Mrs. Smith, "The Appearance of the College Girl."

Dean Taylor, "Prayer."

Dr. Noe, "Literature."

Dean Turk, "The Enforcement of the Law."

Katherine Kinchloe, Georgia Rouse, and Elizabeth Hagan are the leaders in charge of Patterson Hall; and Corrine Taylor is conducting the study in Smith and Boyd Halls.

The halls will retain their same leaders, Boyd Hall meeting each time with Smith Hall. A schedule has been planned for the sorority houses in order that each one may receive five or ten of the lecturers.

### FORMER STUDENT IS ACCORDED HONORS

### Is Awarded Fellowship to Study in France and Spain

Oscar V. Petty, former student of the university, has been awarded the American Field Service Fellowship, according to a letter Dean Boyd recently received from Mr. Petty.

This fellowship pays \$1,200 and entitles one to considerably reduced traveling expenses. It will allow Mr. Petty to spend about fifteen months in Europe, mostly in France and in Spain. The academic year of 1925-26 he will spend in study at the Sorbonne, Paris, and the following summer in the University of Madrid. By this study he will receive invaluable preparation for teaching French and Spanish.

The active members of the sorority are Misses George Moore Smith, Jimmie Collins, Hattie Mae Carter, Kathleen Carter, Josephine Yates, Mary Owsley, Lillie Mae Corn, and Marjorie Morrison.

### Sigma Alpha Epsilon Banquet

Kentucky chapter of Sigma Alpha Epsilon fraternity observed its Founders' Day, Monday, entertaining with a banquet in the evening in the palm room of the Phoenix hotel, following initiation services.

The pledges who were taken into the active chapter were Jack Cloen, Norris Duvall, H. A. McNary, Gayle Mohney, Lon Rogers, and William Strode.

Mr. E. B. Webb, alumnus, presided as toastmaster, and the following toasts were given:

Kentucky Epsilon ..... Sam Caldwell  
On Politics ..... Gardner Bayless  
Things Wise and Otherwise ..... Gerald Griffin

Past the Kid Stage ..... Gus McNary  
Why is an S. A. E.? Tommie Bryant  
Music was furnished during the banquet by the university quartet and several violin solos were given.

Triangle fraternity initiated the following men:

Chas. G. Bryant, Franklin; Harry B. Carpenter, Montclair, N. J.; Rodes V. Clark, Lexington; Chas. L. Dees, Oblong, Ill.; B. F. Kells, Williamsburg; Cyrus Poole, Lexington; Oscar J. Stoesser, Louisville.

A meeting of the mothers of the university students was held in White Hall Tuesday, March 10, at 3:30 o'clock. The problems of the town students were discussed.

The mothers and faculty feel that the university girls who live in town do not get as much out of college as do the other girls, and plans whereby this state of affairs may be changed were offered.

After the meeting, tea was served in the Y. W. C. A. rooms.

### TOWN MOTHERS DISCUSS PROBLEMS WITH FACULTY

We take pride in offering unusual and beautiful flowering plants that are suitable for every occasion. Because we specialize in such endeavors and grow plants in quantities, we are enabled to quote very moderate prices.

### WELCOME, BASKETEERS

This week the university is host to the winners of the district basketball tournaments, thirty-five teams in number, who have gathered to compete with brawn and skill for the high school basketball championship of the state. Our guests, many of them visiting the university for the first time, will carry away impressions of the state's greatest school; will that impression be the one that we, as hosts, should wish to give?

In this tournament, the seventh since the idea was worked out, there has been greater interest shown and more effort taken than in any past year. The reason is obvious. No other gathering of high school students comparable in number and effect to the State Basketball Tournament is held. Together with the track meet and debate contest in the spring, they form entirely the personal contact of the university with the source from which it must, within the year, draw its recruits.

Then, too, there is an element in the tournament that gives it a glamor and an appeal lacking in most tests with which the average student is familiar. Romance, conflict, hardihood, and physical prowess are characteristics endeared to the average Kentuckian. We are of an aggressive race. The call to combat, to arms, and in this latter day, to its moral equivalent, is like unto melifluous music. Collectively, we care not who wins, knowing that to those who exhibit the trinity of athletic qualities combined in endurance, skill, and spirit, the laurels will be given. Enough if we have but seen and felt the surge of feeling that clean sportsmanship always, somehow, elicits.

Let us this week be hosts in every sense of the word, and as it is understood by Kentuckians. Our younger friends are our guests, let us make them feel our hospitality and happiness that they are with us.

### THE PROOF OF THE PUDDING

Last week's issue of the Kernel, the Theta Sigma Phi edition, is an outstanding example of work well planned and well executed, barring, of course, the occasional and unavoidable devility of misplaced type.

Every department of the paper was up to 100 percent par. The freshness of the news, the pep in the sports, the excellence of the editorials and even the daring in the "JAW" column bespoke of the training and the ability of the hastily constructed staff. Surely, the drilling to which they have been subjected showed positive results in the publishing of their issue.

Journalism has not only exacting demands in its own domain, but it encroaches upon that of law and current history; it teaches English and sociology. It requires an enthusiastic comprehension in every subject from Italian policies to the calories in an orange. Small wonder that it develops such capable and brilliant organizations as Theta Sigma Phi and Alpha Delta Sigma.

It is an excellent idea to put into practical application knowledge lately acquired. It shows to the university and to the Commonwealth at large that self-confidence is an asset which bears the hallmark of success. It gives the student a keener perception of the seriousness and obligation of his vocation. It proves to the interested onlooker that, after all, school is not merely a game punctuated by an occasional lesson.

To Theta Sigma Phi we offer our sincere congratulations on its successful issue of the Kernel. If the journalist-eating dragons they feared had been seated on every fence post, waiting to feed on the mistakes and failures, the meal they could have secured would have been the frazzled end of a lost opportunity.

### SHALL THE MURDERER LIVE?

Tomorrow night the man whose name is synonymous with the quintessence of modern oratory—as only the South can produce—will meet in debate in Washington the man known as the greatest criminal lawyer of the country. The first man is Mr. A. O. Stanley, who is probably the finest orator in the country today; the lawyer is Mr. Clarence Darrow, whose ability and shrewdness was the deciding factor in the Loeb and Leopold case. The subject of their debate will be: "Should Capital Punishment Subsist in the Modern Penal Code," and Mr. Stanley will uphold the affirmative side of the question. The debate will take place before the Washington Bar Association and all such law students and members of debating societies as care to attend. The audience will undoubtedly be large, for both men are well known and the question of capital punishment is widely discussed today.

It is interesting to note that Clarence Darrow, is opposed to capital punishment, and that he has been the instrument in jury decisions against it in many of the most famous trials. Although capital punishment seems at times to be a licensed relic of barbaric days, many still advocate the practice.

Certainly the abolition of capital punishment would mean a revolution in the court proceedings and laws of our country. The results seem dubious. With the ever-increasing and developing crime wave, it would be hazardous to remove the criminal's fear of death, since the criminal, essentially, is a coward, and is restrained, to a great extent, from committing crime, only by his fear of death. Why should so many millions of dollars be spent by society in the preservation of the lives of the offenders against society? If capital punishment were abolished, the country would stagger under the added drain on public funds necessitated for the segregation of the criminals. Society cannot use such men and it is better off without them.

## FRESHMEN MUST WEAR THEIR CAPS

### Seniors Discuss Issue With Frosh at Convocation

President McVey, Charles "Turkey" Hughes, president of the Men's Student Council, Clyde Gray, president of the Senior class, and Loyal Van Arsdale, president of the Freshman class, spoke at a convocation of Senior and Freshman men held at the fourth hour Tuesday in the Basketball auditorium. The purpose of the meeting was to discuss certain problems concerning the two classes, especially the problem of making all first year men wear the freshman caps at all times.

Doctor McVey stated that it was not merely a question of caps, but was a question of the proper attitude of freshmen to do so. He said that it was an honor to wear the blue and white cap, for it enabled freshmen to recognize and become acquainted with each other, and as well showed that they were new-comers in the university.

In response to President McVey's talk Hughes told of the difficulties Seniors experience in making some Freshmen don their caps. Gray told the assembly that the Seniors abolished Senior Court last year on the condition that the Freshmen would wear their caps, and he asked the first year men to keep their part of the bargain. Loyal Van Arsdale received hearty applause when he appealed to the school spirit of the freshmen in urging them to comply with the wishes of the upper classmen.

## STROLLERS CAST 3 MINOR PARTS

### Director Pleased With Progress of Spring Production

Announcement has been made by Gardner Bayless, director of Strollers, that the three minor characters of the cast of "Fifty-Fifty," the production of the organization this year, have been chosen, and has definitely outlined work on the play.

The three members who complete the cast are: John Lair, as the Sailor; Mary Louise Fleming, as Josephine; Wayne Foust, as Smudge.

At a meeting of all Strollers held Friday afternoon with Professor Enoch Grehan, faculty advisor, several plans in regard to the spring trips were presented for consideration, and at another meeting held Saturday, tentative plans were made.

It is the desire of the entire membership of the organization and also of old Strollers in the western part of the state, to take the annual plays into this new territory, with the idea of bringing the university to the attention of western Kentuckians.

The eastern trip will be much the same as usual, and plans now favor the presentation of "Fifty-Fifty" in Harlan, Middleboro and probably in Lynch.

A number of university alumni who are loyal old Strollers, are planning to establish a custom whereby the night of the annual presentation of the play in Lexington will be "Old Stroller Night," thus bringing back former members of the organization in an annual reunion.

### DR. J. S. CHAMBERS LECTURES TO MEN

Dr. J. S. Chambers, a graduate of this university and also of Michigan, who is at present the Fayette county Health Officer, and a representative of the Rockefeller Foundation, addressed the ten classes in Hygiene during the week on a special subject, lecturing to men only.

## The nation-wide Good Roads program spells OPPORTUNITY for hundreds of engineers—

THE unceasing growth of the automobile industry, the development of long and short-haul trucking, the spread of motor-bus routes and the vital national need for bringing farm produce to its markets more speedily and at less cost—these factors have put an impetus and a pressure behind the paving industry which cannot lessen until every state is a network of hard-surfaced trunk highways with myriads of paved "feeders" reaching out into each smaller center.

The corollary to this is that the young engineer who decides to specialize in paving as a life-work is certain to find a constantly active market for his service.

## MORTAR BOARD GIVES CARNIVAL

To Present Unique Entertainment Friday, March 20

The Staff and Crown chapter of Mortar Board, senior women's honorary fraternity, will give a carnival on Friday afternoon, March 20, from 3 to 6 o'clock in the Men's gym.

The admission will be fifty cents and tables for bridge will be furnished and a prize given to the table having the highest score. The Blue and White orchestra will furnish the music for dancing. Vaudeville stunts will also be offered.

The refreshments, which will be sold for a small sum, will be served in the same manner as they are sold in cabarets, with printed menus and attractive waitresses.

The proceeds are to be used in offering a scholarship to the Pine Mountain School and to procure a silver trophy which will be awarded to the Freshman girl making the highest standing for the year. This prize will be offered annually, the cup with the girl's name engraved on it will be passed on the following

year to the next successful student. The public is asked to come to this unique affair expecting to be entertained and to have a good time.

## 7 MEN HONORED BY PRE-MED. FRAT

Phi Beta Chi Announces its Pledge List

Phi Beta Chi, medical fraternity, announces the following pledges: C. B. Shackleford, Tommy Adams, J. L. Keyes, H. H. Willis, Ward Bushart, Norris Duvall and R. K. Flege.

The active members of the fraternity are: Grandison McLean, Glynn Bushart, Cecil Charles, Glenn Darroch, David McIntyre, Russell Teague, J. C. Covington, William McGehee.

The honorary members are Dr. J. W. Pryor, Dr. W. D. Funkhouser, Dr. W. N. Lipscomb and Dr. J. E. Rush.

## FIRE TURNS 150 MEN OUT IN COLD NIGHT

Cumberland College Dormitory Destroyed by Flames

The men's dormitory of Cumberland College, at Williamsburg, burned Monday night, March 2, forcing 152 students out in the bitterly cold night with only their thin night garments. The loss sustained was about \$150,000, with \$42,000 insurance.

All efforts to check the flames were futile. The Nashville fire truck was called to render assistance but was too late to be of service.

Plans are already being laid to build a new dormitory on the same site. It will be much larger than the old structure and will have 500 rooms.

## KY. WINS AND LOSES IN TWO DEBATES

Defeats Centre, Loses to Berea in Triple Tie

The University of Kentucky debating teams won and lost in the triangular debates with Centre and Berea Colleges held last Friday night at Danville and Lexington respectively. Kentucky, defending the negative side of the question, won the unanimous decision of the judges over Centre, while the Berea team, defending the negative side, won from Kentucky team at Lexington. Centre defeated Berea at Berea, upholding the same side of the question.

The subject was: "Resolved: That Congress should be empowered to override by two-thirds majority the decisions of the Supreme Court declaring congressional action unconstitutional."

The teams supporting the negative side of the question won in each contest, and as each institution won one debate and lost one, no winner was declared.

The Kentucky team which defeated Centre was composed of Hobart Grooms and W. O. Kellar. The team against Berea was J. B. Johnson and John R. Bullock. The judges for the Lexington debate were George Fisher, W. B. Jones, and D. E. Fogle, of Georgetown College.

### TOURNAMENT DANCE

Announcement is made of a tournament dance to be held in the gymnasium Saturday night, following the finals in the high school games. The dance is to be sponsored by the SuKy Circle and is to be very informal.

This will be the first of two dances given by the Circle this year, the second to be given as a "Gingham Dance," on May Day. The Kentuckians will play and the student body and visiting high school teams are invited.

### Y. W. C. A. NOTES

A Blue Ridge program will be given Sunday evening at 6:30 o'clock by the Y. W. C. A. at Patterson Hall. The following topics will be discussed: "Blue Ridge as a Place," by Elizabeth Hagan; "Recreation," by Frances Field Coleman; "The Inspiration that Blue Ridge Gives," by Lucille Bush; "The Tentative Program for this Summer," by Frances Lee.

## Stake out your claim in this field

ONE field where there is still undeveloped territory, still room for pioneers, is the electrical industry. This will be encouraging news to the man who thinks he was born too late.

If your aptitude is technical, there are years of usefulness ahead of you in helping to design, construct and operate public utility lines. And too, fast-growing markets for electrical apparatus call for more and more college-trained men in the manufacturing end of this industry.

Or if your interests are along commercial lines, there is a broad opportunity for you here in the various departments of purchasing, accounting, distributing, selling and advertising.

WINTER HAS GONE (?)

SPRING HAS COME (?)

*On Kernel Sport Page***MANUAL BEATS DEVILS IN FIRST TOURNAMENT GAME****EXPECT BETTER QUINTET FOR THE 1926 NET SEASON****Hughes is Only Man to Graduate; He May Return****STRONG FROSH FIVE****Eklund's Coaching System Praised by Centre Coach**

Three years have now passed since the boys of 1921 brought back the loving cup, designating them as the champions of the south, and the most wonderful basketball quintet that ever represented the University of Kentucky. Each year, with one exception, in this spectacular event the Blue and White has advanced only to the first round and this year they stepped out in the first game and found themselves playing in the second round of the Southern tournament.

Rated by many sport writers of the south to finish twelfth in the conference and to lose their first game, they upset all the dope and eliminated the Mississippi A. & M. quintet by the score of 31 to 26. The Wildcats, led by the charges of the mighty Will Milward, left an impression upon the south that basketball in Kentucky is of a high standard.

Kentucky will not lose any of her regular players except "Turkey" Hughes, who will be eligible next year if he wishes to return to the university, but it is expected that he will not be enrolled next year. Underwood, McFarland, passing captain of the Blue and White, Alberts, Carey, Helm, Milward, and White are the first string men who will probably be back in the uniform next year. Tracy, Besuden, Smith, and others who wore the Wildcat tags for a part of the season, may also appear again for practice.

**GIRLS HOLD VOLLEY BALL TOURNAMENT****Sophomore Women Are Returned Winners**

The sophomore class, feminine volley ball artists, were declared the winners of the volley ball tournament held in the girls' gymnasium Tuesday night.

The seniors were unable to muster a team and they defaulted. The sophos won two out of three each from the junior and freshman classes, winning the first two games in each start. The juniors also beat the freshmen two out of three.

**RIFLE MEN SCORE HIGH IN MATCHES****Bullock Leads the Team With Scores of 100, 98 97 and 94**

The University of Kentucky rifle team fired a double match with the Universities of Oklahoma and Missouri last week, winning over the former by 259 points and defeated the latter by 10 points.

E. T. Bullock, a junior in the college of Engineering, was high scorer with 100 in the prone position, 98 sitting, 97 kneeling, and 94 standing. This score is the best which has ever been fired on the local range at the university. Bullock and nine others made the score of 3,793 points out of a possible 4,000.

The other men who composed the team are given below in the order of their scores: G. D. Rogers, Mayo Anderson, J. C. Bobbitt, H. R. Brown, O. B. Travis, Robert Griffin, J. C. Richardson, C. C. Rice, and H. R. Forkner. Sixteen men compose the squad and the ten men who make the best scores each week are the ones who are selected to fire in the competition matches.

**Louisville Team Atones For Defeat Handed Them In Last Game of Last Year's Tourney****MANUAL, GEORGETOWN, FAVORITES**

By FRANK K. HOOVER

Defeat in its bitterest form was handed the Lexington High School Blue Devils, four times winner of the basketball championship of Kentucky and once winner of the basketball championship of the world, yesterday morning by the Louisville du Pont Manual High school in the first game of the seventh annual inter-scholastic basketball tournament being sponsored this week by the University of Kentucky.

The Manual boys started off with a four point lead and were never headed. Phenomenal long shots featured the game, with the Louisville team making most of the fancy shots. Jefferies, the sorrel topped forward of the Crimsons, was possibly the outstanding luminary for the Louisville aggregation.

The final count was 25 to 13 and the victory was one of the "sweetest stories ever told" to Crimson followers. It fully atoned for the defeat handed the Manual team by the Blue Devils in the finals of last year's tourney.

The winners of yesterday's initial fracas had been installed favorites over the Blue Devils, in view of their two clean-cut victories over Coach Heber's five earlier in the season and they did not spring a surprise.

**GEORGETOWN GIRLS WIN FIRST**

The Georgetown High school misses, who have been the favorites in the girls' division of the tournament, defeated the Owensboro High school misses 16 to 8 in the first game at 9 o'clock yesterday in the girls' gymnasium. The Georgetown girls held a slight lead of 7 to 5 at the end of the first half.

**First Real Baseball Practice Carded For Monday Afternoon; Play Tigers There on April 9**

The Blue and White baseball squad this year should be one of exceptional talent and merit. Coach Fred J. Murphy, former Yale diamond luminary, has some excellent material around which to build a strong hitting and good fielding team.

Murphy has had the battery men working out for the past week in the gym. The men take exercise to develop their arms, and indulge in light limbering up practice with the ball. As soon as favorable weather appears, Murphy intends to issue the call for all varsity candidates for an outdoor practice. The new diamond is being worked on daily and should be in condition by the time Murphy issues his call.

Behind the plate, there will be Henry, last year's varsity receiver, and Goodwin, the frosh catcher of last year. Both are capable catchers and work well with the pitchers.

In the box the 'Cats' have a good array of slab men in Jess Riffe, the boy who whitewashed Centre last year to the tune of 7 to 0; Turner Gregg, an experienced pitcher of several seasons; Elmer Vossmeier, who pastime both in the box and in the field last year, but who will only do pitching duty this year. Then there is Robert Samuels, a pitcher of much promise, and who has had major league offers but who was ineligible last season. "Turkey" Hughes can also do mound work if necessary, but who will most likely hold down an outfit birth this year, due to his ability with the stick. Clark and

Chancellor, last year's Kitten hurlers, may also get a chance to show their ability.

Captain Reed Miller, brainy hitter and lead-off man, will hold down the initial sack, and Frank Smith, star of last year's Green and White team, will most likely covet around the keystone sack with Chuck Alberts on the other side and Lyle Croft covering third base territory. Alberts and Croft are letter men from last year's state championship team.

The outer garden should be the pride and joy of the Wildcats, as here a trio of hard hitters and fast fielders will reign. Hughes should get the ball in left field and Floyd Arnold, last year's freshman captain, should capture the center garden job. In the right spot the much sought after John Riffe will be at his old position. The playing of this boy last year caused many big league scouts to offer nice inducements to the young Wildcat, but he decided to continue his education and will be back again this year to lead the Wildcats in batting percentage.

Johnny Evans, Mayo Anderson, W. Armstrong, E. Sherwood and W. P. Clark will also make the regulars hustle and Coach Murphy should find some capable relief men in these.

The Wildcats have a heavy schedule this year and will have to play heads up ball to come through victoriously, but with Coach Murphy and the above mentioned men, Kentucky should produce a baseball team on a par with the best collegiate teams in the country.

**HIKING CLASS FOR GIRLS BEGINS SAT.****Any Girl Student is Eligible to Join Outing****MURPHY CEASES GRID PRACTICE UNTIL MONDAY****Other Schools have Big Spring Training Squads****70 OUT AT CENTRE****Greater Interest in the Work is Urged by Mentor**

Jupiter Pluvius threw a monkey wrench into the Wildcat machinery Wednesday and neither baseball nor football men have been able to do much toward conditioning since the rain.

Earlier in the week, the warm breezes which began blowing across Stoll Field made a football uniform seem very hot and heavy, and the gridiron lost much of their pep and enthusiasm.

In fact, they lost so much of it that Head Coach Murphy issued an order to the squad, temporarily "disbanding it in disgust." The coach declared that no good was coming from the sluggish practice sessions, which have been attended lately by only a few men.

Beginning next Monday, the mentor will have his men out on the field again for a few days spring training and he is expecting a larger number than answered his first call. He is making an effort to convince candidates that spring football practice is essential in the life of any college which expects to take on such an ambitious schedule as the Wildcats have signed up for next season.

Kentucky plays Chicago on October 3 and Murphy feels that every hour of practice this spring will count much when the Wildcats assemble next fall for their brief period of preparation before the big game.

The value of spring practice is realized at practically all colleges, and other universities seem to have no trouble in getting a large number of men out in March. On their recent southern trip, members of the basketball squad reported that they found football practice enthusiastically under way at the schools they visited, with large squads in training. Over at Centre College, Kentucky's ancient rival in all sports, about 70 men reported for the first practice.

**Parisian Pastry Company****On Lime, Just Above High****We have a Special 25c Lunch Every Day****ALL SANDWICHES 5c****Create an Estate Today**

If you were offered a credit of a few thousand dollars, to be paid to your family at your death, or to yourself 20 years hence, should you be alive, and in consideration of that credit you pay a minimum annual interest, on that sum for 20 years, you would consider it an easy way of securing an estate—an opportunity of providing yourself and dear ones against possible want. You would not hesitate a moment to grasp it.

## BERNICE BONAR IS ELECTED MOST DESERVING GIRL

Obtains Such Honor in  
Recent Senior Elec-  
tion

OFFICER IN W. S. G. A.  
Is a Member of Mortar  
Board and the Y.  
W. C. A.

Bernice Bonar, in being elected as a representative senior in the recent Kernel election, had bestowed upon her in a small way a tribute of appreciation by her fellow students. She has lived at Patterson Hall during the four years she has attended the university and has won for herself the respect and high regard of all who know her.

Bernice lives in Carlisle and was graduated from the Bourbon County high school. Recently she was elected alumni president of that institution.

Since she has been on the campus her friends are not the kind of "hail fellow, well met," but those of long standing and those won by close association. She possesses in her character a rare quality in a modern girl, namely that of retirement and unpretentiousness. This characteristic does not, however, place her full worth in obscurity and many responsibilities are given her in token of her ability.

She is a member of the Y. W. C. A., Mortar Board, senior women's honorary fraternity, and of Philosophian Literary society. Last year she was the Junior representative of the Student Government and this year she was elected the first vice-president of the same organization. She has recently been elected president of the Eastern Star Club, a newly organized group.

Miss Bonar is majoring in English and is minoring in French and Sociology. She plans to teach next year.

### U. K. RATES HIGH IN THE NATIONAL DAIRYING TEAM

(Continued from Page One)

The teams from the University are surpassed only by teams from larger colleges which makes it possible for them to have a larger group of students from which to pick a team.

Professor Hooper, head of the department of Dairying, and coach of the local teams, stated that he never has more than ten men from which to pick when he chooses the judging team each year, whereas the larger universities have fifty or more, and a large fund for the purpose. The funds at the University of Kentucky are limited, and students must defray their own traveling expenses while working for places on the team.

The only state having representations at each of the sixteen contests is Nebraska, and Kentucky has participated in only nine. This is proof that Kentucky, despite handicaps, has done well in the judging contests.

The university team of '11 has been the only one to win first place, but other teams have made splendid showings. Members of the "Immortals," as they have been called, were: Cotton Smith, deceased; Paul LaMaster, of Clemson College; and Wallace Campbell, farming in this state. In 1913 the university team placed second—the University of Missouri taking first place. In 1920 the team placed third. The members of this team were Harry Farmer, D. Y. Dunn, and Frank Wedekemper.

Next fall the International will be held at Indianapolis and four men will make the trip, three judges and one alternate. Professor Hooper will accompany the team as coach.

Prospects for a quality team next year are exceedingly bright and plans are already being made for the trip, according to Professor Hooper.

### PROFESSOR LUNN WILL GIVE FOUR LECTURES HERE

(Continued from Page One)

cago. It is a non-technical lecture and is of interest to those interested in science and its philosophical background.

Professor Lunn will lecture on Friday afternoon on "Historical Background of the Einstein Theory; the Special Relativity Theory and Space Time Geometry as a Scheme of Reconstruction of Physical Concepts." His subject on Friday evening will be "Relativity and the Quantum Phenomenon." These lectures will be given at the same time and place as the preceding ones.

On the evening of March 26 at 6 o'clock, a dinner will be given in honor of Professor Lunn at the University Cafeteria. Those desiring to attend should make reservations at once with Professor W. S. Webb. Reservations will be filed in the order of their receipt. When the number reaches the maximum capacity of the Cafeteria, no additional reservations will be accepted. Tickets for the supper will be \$1 a plate.

## SIGMA XI CHOOSES FIVE NEW MEMBERS

Doctor McFarland Reads an  
Interesting Paper

Sigma Xi, honorary scientific fraternity of the university, met last Friday night. Dr. A. C. MacFarlan, professor of geology, was the speaker and discussed oil geology problems, especially those of Kentucky.

T. M. Hahn and Ben Kivit, of the department of Physics, Smith Park and Marion Brown, of the department of Mathematics, and H. H. Thornberry, of the college of Agriculture, were elected to associate membership in the chapter. About 30 members were present and refreshments were served after the program.

Doctor MacFarlan gave an historical outline of the development of the industry, brought on to a great extent by the drilling of early West Virginia settlers for salt. The general geological concept of the origin and accumulation into pools, and the bearing of the past conditions of heat and pressure on the known distribution of oil and gas was given. This was augmented by a carbon ratio map for eastern Kentucky coal fields prepared by the speaker.

### 18 DISTRICTS ARE REPRESENTED IN ANNUAL NET TILT

(Continued from Page One)

Messrs. Hanson, Hayden (former Kentucky player), Peak, and Head. Coach Murphy is official time-keeper and Gene Moore is official score-keeper in the boys' division.

The teams which were victorious in the district tournaments held last week throughout the state and which are now fighting here for the state championships are:

By districts: 1 Almo High boys, Reidland High girls; 2 Barrett Manual boys and girls; 3 Bowling Green boys, Scottsville girls; 4 Owensboro boys and girls; 5 Horse Cave boys, Memorial girls; 6 Campbellsville boys, Taylor county High girls; 7 Frankfort boys, Lawrenceburg girls; 8 Lexington boys, Georgetown girls; 9 Carrollton boys, LaGrange girls; 10 Newport boys, Norwood girls; 11 Brooksville boys, Flemingsburg girls; 12 Winchester boys and girls; 13 Monticello boys, Science Hill girls; 15 Pikeville boys, Paintsville girls; 16 Ashland boys and girls; 17 DuPont Manual Training boys, no girls; 18 Hazard boys and girls.

Play will be carried on simultaneously in the two gymnasiums. The boys' games will be played in the new basketball auditorium, while all the girls' games will be played in the

women's gymnasium, with the exception of the final game, which will be played in the men's gym Saturday afternoon at 2:30 o'clock.
